

INDUSTRIAL DIVISION

EXCELLENCE IN CHEMICAL SPECIALTIES

Distributor and Producer
of Chemical Specialties

Since 2006 our team of specialists offer the best products for the industrial sector. Our team has long experience at both technical and commercial levels.

This division allows us to cover different industrial sectors to which we distribute chemical specialties with great added value, highlighting our commitment to innovation and the new demands of the market.

- ISO 9001 quality certificate, LOW outgassing, and NASA and ESA certifications
- Advanced engineering silicone products and industrial additives

¿WHAT MAKES US DIFFERENT?

- A highly qualified team with experience in many sectors and applications.
- Total flexibility in the demands of our clients, including the production/distribution of customized solutions.
- Chemical products are produced with the highest technology and under the highest quality requirements and respect for the environment.
- Quick solutions to the needs of our customers.
- We supply from large quantities to small formats.

INDUSTRIAL DIVISION

AERONAUTICS AND DEFENSE

Silicone Elastomers
Silicone Fluids
Release Agents
Silicone Resins
Heat Conducting Silicones
Aircraft Grade Silicone Adhesives
Ultra Low Outgassing Silicones
Silicone Masterbatches
HCR (High Consistency Rubber)
LSR (Liquid Silicone Rubber)

TEXTILE INDUSTRY

Acrylic Resins
Poliurethane Elastomers
Pearlescent Pigments
DOTP, DOP, DOA, DINP Plasticizers
Silicone Fluids
Fabric Softeners
Water & Oil Repellents
Anti-Wrinkle
Thickeners
Detergents
Moisturizers
Defoamers
White Dyes
Lacquers
Dye Fixatives and Special Pastes
Bleach Stabilizers
Surfactants
Ph Modifiers
Glycols
Macroemulsions and Microemulsions
Killer H2O
Scavenger
Chlorinated Paraffin (45, 52 And 70%)

PLASTICS

DOTP, DOP, DOA, DINP Plasticizers
Chlorinated Paraffin (42% 52% And 70%)
Curing Agents
Fumed/Precipitated Silicas
Metallic Stearates
Lubricants
Stabilizers
Naphthalene Sulfonates
Lauryl Sulfates
Stearic Acid
Palmitic Acid
Silanes / Crosslinkers
PVC Stabilizers
Silicone and Silicone-free Release Agents
Pearlescents Pigments
Titanium Dioxide Pigments
Iron Oxide Pigments
Silicone Elastomers (HTV, LSR, RTV-2)

METALLURGY | PETROCHEMICAL INDUSTRY

Fumed Silicas
Defoamers (Powder or Emulsion, Silicone and Silicone-free)
Biocides / Fungicides
Silicone Emulsions
Silicone Lubricating Fluids
Silicone Greases
Release Agents
Corrosion Inhibitors
Glycols
Stearic Acid
Palmitic Acid
N-Methylpyrrolidone (NMP)
N-Ethylpyrrolidone (NEP)
Polyvinyl Alcohol (PVA)
Chlorinated Paraffins
Sulfonated Dodecylbenene Acid
Non-Ionic / Anionic / Amphoteric Surfactants
Glycerin

INDUSTRIAL DIVISION

MOLDING / ELECTRONICS / ENGINEERING

Silicone Elastomers (RTV-2 RTV-1)

Silicone Fluids, Gels and Greases

Release Agents

Poliurethane Elastomers and Resins

Corrosion Inhibitors

Thermal Conductive Silicones

Controlled Volatility Silicones

Fluorosilicones

Aircraft Grade Silicone Adhesives

Ultra-Low Outgassing Silicones

Silicone Masterbatches

Fumed Silicas

Precipitated Silicas

Stearic Acid

Silanes / Adhesion Promoters

Pigments

Thixotropic Agents

Deaerators for Polyester

Defoamers for Polyester

Titanium Dioxide

Heat Dissipating Silicone Pastes

Silicone Greases

Silicone Primers to Promote Adhesion of Elastomers on Metal

Silicone and Silicone-Free Sprays As Release Agents/Lubricants

Reactive Silicone Fluids for Waterproofing Powders for Electrical Resistances

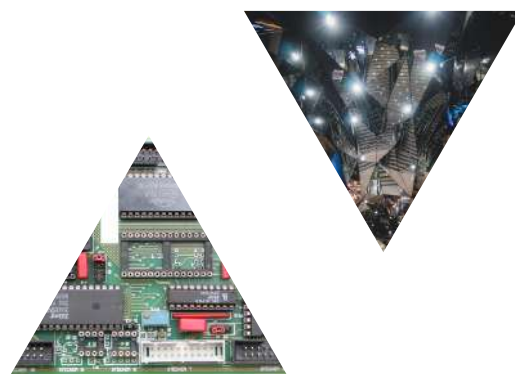

Aircraft Grade Silicone Adhesives

LSR (Liquid Silicone Rubber)

HTV (Hot Vulcanizing Silicone Rubber)

HCR (High Consistency Rubber)

Ultra-Low Outgassing Silicones

CORQUIMIA
